

Anthony Mantini

Project Manager

Specialty / Expertise

Project Manager - Duties include daily management of projects with an emphasis on quality control. Will also include dealings and coordination with subcontractors, permits and inspections from the local municipalities, and working closely with the appropriate engineer and architect.

Career / History / Professional Recognition

Thirty five years in the construction field. Twenty eight years with the International Building Trades Union. The past ten years spent with The Troast Group as project superintendent with a move to Hollister Construction Services in the spring of 2005. After a brief retirement, Mr. Mantini was asked to return as a project manager to maintain Hollister's superior quality control.

Education / Association
