

## Richard Campbell • Senior Vice President of Construction - Pennsylvania Office

rcampbell@hollistercs.com  
484.928.6814

### Specialty / Expertise

Richard brings to Hollister an extensive bank of knowledge and experience including general construction practices and procedures as well as concentrated experience on Data Centers and interior fit-outs. He is well versed in the many technical aspects of construction management including the use of collaborative project management programs. Mr. Campbell is a successful leader and motivator and a true asset to the team spirit Hollister works hard to maintain.

### Career / History / Professional Recognition

Richard began his career as a U.S. Navy Electrician working in various locations. He then worked as contract service provider for Serv-Air, Inc. in Fort Monmouth, NJ. Afterward Mr. Campbell served as project manager for both All Industrial Maintenance and Construction for five years, and then for StructureTone, Inc. for eleven years. At StructureTone he moved from Project Manager to Director of Operations under which profile he served the last five of his eleven years total.
