

Robert J. Unice

Superintendent

Specialty / Expertise

Robert Unice is a Field Project Manager. He oversees multiple projects simultaneously and his talents include managing ground up construction and renovations of large warehouse, office, and retail facilities, coordinating all aspects of construction from contracts to inspections and successful completion of projects well before the scheduled finish dates.

Career / History / Professional Recognition

Mr. Unice started his construction career with BGA Construction, a national retail store fixture contractor. Later moving to Marsi Construction, a residential construction company, he tuned his expertise as a Project Manager, learning his trade "hands-on." Later he moved to the Troast Construction Company in Paramus as Jobsite Superintendent where he was recognized by Commerce Bank for completing the bank in record time.
