

Scott Zeller

Superintendent – LEED AP

Specialty / Expertise

Construction management professional experienced in field operations, with the ability to identify priorities, detail oriented, capable in leadership roles and recognized for creative solutions. Successful in collaboration with owners, architects, subcontractors and management teams to coordinate and direct projects. Effective in construction logistics, safety, quality and client relations. Demonstrated ability to establish rapport and earn confidence of colleagues and clients.

Career / History / Professional Recognition

Career spans over 24 years in the construction industry. Initially worked as an architectural draftsman that led to a position as a lead framer for a residential single family home builder. As an entrepreneur, running a successful residential design/build/remodel company provided an opportunity to join an international construction management company where I managed a variety of pharmaceutical projects including renovations and new construction in Southeastern Pennsylvania, Delaware and New Jersey.

Education / Association
