

Vincent Solano

Chief Estimator

Specialty / Expertise

As Chief Estimator, Vincent Solano is accountable for overseeing and supervising the estimating department. Mr. Solano's responsibilities include scheduling and estimating/budgeting various construction projects in the New Jersey and New York markets, selecting and qualifying subcontractors for bidding projects, creating detailed scopes of work for each trade to assure complete and comprehensive scopes of work during purchasing.

Career / History / Professional Recognition

Mr. Solano has over 15 years experience in the construction industry. He began his career as a Project Manager/Estimator with General Contracting Inc./Bennett Development. His employment history includes positions with Eastman Construction Company Inc., Carson and Roberts Site Construction, and most recently, The Holder Group where he held a dual position as Chief Estimator and Business Development-Sales Executive. Mr. Solano has worked on an array of projects, including out-of-ground industrial buildings, building restoration, medical tenant fit-out, ground up retail centers, office fit-outs, and complex site improvement projects.
