- Call center, executive area and data room

"The Hollister team were true professionals and lived up to Hollister's motto of "Building Sound Relationships". It was refreshing to have a team with a "can do" attitude to meet such a tight timeline for our tenant. Often times as a Landlord we are caught between our customers (tenant) and our workers (Hollister). This was not the case on this project. Day one your employees brought along with them a team atmosphere and kept it through project completion. Your teams innovative ideas, especially related to project schedule, are a true testament to Hollister Construction and its ability to meet customer demands. From the first project meeting through the punch list your team handled themselves with such professionalism and customer care that is unmatched in the industry. It is with great pleasure that I write this recommendation and look forward to many more successful projects together."
